

# Full-stack developer

---

As a Full-stack Developer at Second Company you are responsible for delivering cutting-edge technology for marketing leading companies. You will work in an internationally distributed team.

Your work will be of strategical importance for many of our customers! With your creative and conscientious approach you will continuously create clear technical structures, clean code and high quality reviews.

## What do we expect from you?

- Professional in React, NodeJS and CSS
- Customer minded
- Pro-active
- Hard worker
- Team player
- Respectful

## What we offer:

- Help relocating when needed
- Excellent working conditions within a young and innovative organization.
- A good salary
- Guidance of experienced business analysts
- Free access to Gym inside our building

## About Second Company

Located near Amsterdam. Second Company has a build up a professional and respectful working atmosphere over the past 10 years. We value company culture above technical abilities because we found that every individual is unique in its kind and therefore our synergy always beats the abilities of that one coding hero.
